DETAILED ACTION

This Office action is in response to applicant's amendment filed on 11 October 2004.

Allowable Subject Matter

1. Claims 1-8, 16-27 are allowed.
2. The following is an examiner's statement of reasons for allowance:
 - Claims 1-8, 21 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method of forming a gas dielectric with support structure that includes providing a conductive structure in a wiring-layer dielectric, wherein the conductive structure is separated from the wiring-layer dielectric by a vertical structure and wherein the wiring-layer dielectric and the vertical structure are removed from an area that underlies a support connected to the conductive structure;
 - Claims 16-20, 22-26 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method of forming a gas dielectric with support structure that includes forming a conductive structure

in a wiring-layer dielectric, wherein the conductive structure is separated from the wiring-layer dielectric by a vertical structure and wherein the wiring-layer dielectric and the vertical structure are removed from an area that underlies a support connected to and coplanar to a top surface of the conductive structure; and

- Claim 27 is allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method of forming a gas dielectric with support structure that includes providing a conductive structure in a wiring-layer dielectric, wherein the conductive structure is formed between a vertical sacrificial spacer, wherein a top portion of the vertical sacrificial spacer is removed, and wherein a material that is both coplanar to a stopping layer and also connects to the conductive structure is formed on the vertical sacrificial spacer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
